Q2 2019

market review

Changes in the home lending environment drove down mortgage interest rates in Q2 to their lowest levels in years, giving buyers more buying power for their money and stimulating demand for available homes on the market.

The number of homes for sale continued to rise across Seattle. West Seattle and Richmond Beach/Shoreline experienced the greatest velocity in number of sales. Seattle's overall Median Sale Price was up 4.8% from Q1 to \$760,000, but down 5.2% from Q2 2018. The Average \$ Per Square Foot was down 5.1% from Q2 last year to \$436. North Seattle, Queen Anne/Magnolia and West Seattle all performed better than the average in Q2. Seattle homeowners have seen a 61% increase in the Median Sale Price over the past five years.

As stated in earlier reports, the market has much to offer buyers and sellers this year. We believe those looking to make a move in the next few years should do so this year when they can still secure incredibly affordable mortgage financing. Today's buyers should be prepared to stay in their home at least five years. Home sellers moving to lower cost regions may also benefit from selling now. We know that every situation is unique, and we are here to help you evaluate your personal real estate holdings and purchase strategy.
