2019

year in review

On the Eastside, neighborhoods central to core employment hubs continued to see older, more affordable housing stock replaced with new and more expensive development. On the periphery, reasonably priced homes were highly competitive as homebuyers and investors alike scramble for homes that offer greater appreciation potential.

Development in East Bellevue, particularly surrounding the Spring District, is predicted to significantly drive prices upward in the coming years as employment centers expand and light rail service to Seattle begins.

In 2019, 49.7% of all homes, and 18.8% of homes priced above one million dollars, sold for at or above their listed price.

Median sale prices in Eastside cities fared better than those in Seattle, with the overall Eastside median sale price down 1.0% from 2018. Kirkland performed best on the Eastside with a median sale price gain of 3.8% to \$1,350,000. Looking at the five-year trend, Kirkland came in on top with a 67.1% increase in its median sale price over the past five years, followed by Juanita-Woodinville-Duvall at 48.0%, and East Bellevue at 44.5%.

A savvy way to search
HOMES & STATS ONLINE

Looking for real-time information on today's real estate market? If so, your search is over!

We publish weekly residential and waterfront reports, along with monthly and quarterly overviews, to **WindermereMercerIsland.com/Reports**, providing a summary analysis of what's happening each week in 18 different residential and condo micro-markets throughout Seattle, Mercer Island and the Eastside.

In addition to statistical data, you'll find resources for researching homes and neighborhoods, community profiles, maps, links and school data at **WindermereMercerIsland.com/Research**. And, you can search for every property listed for sale—by any real estate company on **WindermereMercerIsland.com**.

How have these latest market trends affected your home's value?

Stay in the know—contact me any time for a complimentary home value analysis.
